

LIVING WITH CANCER

PETITION

TO THE HOUSE OF COMMONS OF CANADA

- Did you know that if you have cancer or any other serious illness, you are **only entitled to 15 weeks of sickness benefits** paid by employment insurance?
- Did you know that you have to **work 600 hours in advance**, in the past 52 weeks to be entitled to employment insurance?
- Did you know that these benefits are taxable and have not been **indexed since 1971**?
- Did you know that unless you have the chance to recover quickly, **you'll never be eligible for any other benefits**?

I did not. I am a young mother 39 years dealing with a 3rd cancer in 5 years. What is 15 weeks to recover from major surgery and exhausting treatments?

Despite all my profession skills, I have not had the chance to obtain a permanent job within the public service. At each recurrence, I had to rely on employment insurance. Thus I have gone over a year without any revenue and this for the third time.

This situation is unacceptable. Instead of feeling sorry for myself, I decided to act and lead, together with you, this second battle.

Please help me to make a difference by signing this petition.

If you want to get involved by circulating this petition in your community, additional copies can be obtained at the following address: www.petitionassuranceemploi.com

On my behalf and on behalf of all those who go through this ordeal, thank you.

Marie-Hélène Dubé
